Acting

I started acting in 2008, in student films as well as stage plays. In my recent work in film I have been doing background roles that didn't require speaking however I'm more than open to dialogue. I can improvise as well as follow instructions. My modeling career is not as long as my acting career but my first modeling job was in 2006.I would like to continue my craft working in film as well as modeling.

Leadership

I worked in Production at an Performing Arts camp where I orchestrated numerous projects.
